Projects

ft_transcendence

This project is about creating a website for the mighty Pong contest!
i was responsible of developing a remote 3D pong game using ThreeJS.

swifty-companion

The aim of the project is to build an application that will retrieve the information of 42 students, using the 42 API.

Wordpress mobile apps

I was developing those apps for my clients at Fiverr, using the Wordpress API to afford their blog visitors a mobile app version of that blog.

Classic Game Development

Developing browser-based versions of classic games like Tetris, Minesweeper, and Snake using HTML, CSS, and JavaScript.

Implemented game mechanics, controls, and user interfaces to replicate the original gameplay experience.
